

Position Description **Entry level Engineer**

Job Title:	Entry Software Engineer in Practices
Reporting to:	Head of Product Development
Department:	WebBeds IT
Location (primary):	Iasi

Job Purpose

WebBeds is the world's second largest accommodation supplier to the travel industry. We are a global company offering ground services (hotels, transfers, tours, activities) to travel professionals. Our products cover our full business needs, from distribution APIs, payment integrations, SAP integration, Data Lakes, User Interfaces, and others. Our search API reach peaks of more than 50.000 request per second, each one with tens or hundreds of hotels. And those numbers are growing every year.

"We design, deliver and support innovative solutions through engagement, collaboration and a fearsome passion for creating customer value" is our mission as an IT organization.

With this in mind, we strive to be at the leading edge of technology when it comes to build the platform that meets the needs of our customers. This translates to the use of latest .NET versions, K8S, microservices architecture, multiple clouds, CI/CD pipelines, automated testing or great monitoring and alerting systems, to name a few.

Our product focused delivery teams are self-contained and have end to end ownership of their products. "Build it, ship it, support it" is our motto. You will be working in a small self-managed team, consisting of product owner, QA engineers, Software Engineers, and people from across the business.

We have a strong overall technical team from which you will be able to learn.

We are looking for people looking for their first job as a software engineer that go beyond the pure coding, getting involved in all stages of product lifecycle, from the conception to the delivery and support.

We are looking for individuals eager or knowledge and great learning skills.

Key Responsibilities.

- Work as part of a self-managed delivery team composed of developers, quality assurance engineers, and business analysts.
- Embrace a “continuous improvement” mentality, both as an individual and as a team.
- Embrace a “continuous learning” mentality, especially with the WebBeds’ stack of technologies.
- Work with your teammates collaborating and helping them; including, but not restricted to code reviews, retrospective meetings participation, and feedback.
- Adhere to and implement best practices and methodologies within WebBeds guidelines.
- With the rest of the team, ensure that delivered applications are effectively managed and monitored to allow them to serve on a 24/7 basis.
- Assume ownership of the products created during all its lifecycle, which means when developing, going to live and during its life.
- Actively take part in Incident Management, where applicable.
- Deliver clean code, following the agreed standards.

Required Experience and Knowledge.

Desirable	
Qualifications & Knowledge	<ul style="list-style-type: none">• Ability to learn with the help of a mentor.• Candidates should have a good command of the English language and be able to communicate, clearly and effectively.
Experience, Skills, and Behavioural Requirements	<ul style="list-style-type: none">• Self-Motivated and with a high willingness to improve and become a better engineer every day.• Ability to work as part of a self-empowered team• Will be expected to follow our culture of Build it, Ship it and Support it.

About WebBeds.

Launched in 2013, WebBeds is the world's fastest growing B2B travel intermediary, or 'bedbank', providing accommodation and ground product distribution services to the travel industry. We source content from travel suppliers, aggregate and merchandise that content in the WebBeds platform, then distribute it to our global network of travel trade clients, who sell to the travelling public.

Our clients – online travel agencies, retail travel agents, corporate travel managers, tour operators, wholesalers, tourism boards, super apps, DMC's, group providers, airlines and more – access the company's huge global inventory of more than 368,000 hotels (comprising 30,000+ direct contracts, 70+ integrated third-party providers and 60+ major hotel chains) through market-leading, trade-only booking websites or via simple and seamless API connectivity. In addition to hotel product, clients can also book over 5,500 transfer services in 1,200 destinations along with thousands of guided excursions and tickets for attractions.

Our supplier partners – global hotel chains, independent hotels, apartments, resorts, attractions, transfer and sightseeing companies and more – benefit from our global distribution network of over 44,000 travel companies in more than 145 source markets and are supported by a local dedicated point of contact focused on ensuring we deliver value, choice, expertise and an unrivalled level of service.

WebBeds operates global coverage through four geographic regions – Europe, Asia Pacific, MEA (Middle East and Africa) and Americas - with over 1,400 travel professionals working in 50 offices worldwide. WebBeds also operates specialist brands JacTravel DMC and Umrah Holidays International. JacTravel DMC provides tailor-made travel arrangements for offline FIT and groups traveling to the UK, Ireland and key mainland European destinations to the international travel trade. Umrah Holidays International is a genuine pioneer, providing online pilgrimage travel services to travel agencies worldwide.
